## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, drawn to a method of conducting electronic commerce involving permitting a user to exchange a first group of electronic tokens in a user's account that were issued from a first vendor for a second group of electronic tokens issued by a second vendor wherein compensation is transferred from the first vendor to the second vendor, classified in class 705, subclass 39.
  - II. Claims 2-47, drawn to an electronic commerce system wherein a user's account is checked for sufficient funds, classified in class 705, subclass 26.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

In the instant case the different inventions are unrelated because as can be seen above each of the inventions intends to accomplish a different result using different steps or functions.

Invention II, claims 2-47 does not require the exchange of electronic tokens and the transferring of compensation from one vendor to another vendor, as required in Group I.

Art Unit: 3628

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and have also acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
